

## NEWS RELEASE

RELEASE DATE: Immediate

### **Women's Imaging Center and TimberRidge Imaging Center Now Offer Digital Mammography**

**Ocala, FL** (August 27, 2009) – Women's Imaging Center and TimberRidge Imaging Center, affiliates of Radiology Associates of Ocala, have expanded their breast health services with the addition of new Selenia™ digital mammography systems from Hologic®.

Digital mammography will allow Women's Imaging Center and TimberRidge Imaging Center to provide patients with the highest quality of care in the prevention and early detection of breast cancer.

Digital mammography allows the radiologist to view the x-ray image more closely zeroing in on suspicious or concerning areas, enabling them to make immediate decisions about additional images. Digital mammography takes less than half the time of traditional film-based exams, allowing for faster diagnosis.

Women's Imaging Center and TimberRidge Imaging Center are committed to providing focused, compassionate, preventive care. In addition to digital mammography, they offer breast ultrasound, stereotactic breast biopsy, and DEXA for osteoporosis screening. Furthermore, Radiology Associate's Medical Imaging Center at Windsor Oaks offers breast MRI and PET/CT, offering patients a full spectrum of comprehensive imaging.

In addition to providing comprehensive breast health services, the Women's Imaging Center and TimberRidge Imaging Center were designated Breast Imaging Centers of Excellence by the American College of Radiology (ACR) due to their high practice standards. They went through a rigorous review process and met nationally accepted standards of care in all ACR-accredited breast imaging modalities. The Women's Imaging Center and TimberRidge Imaging Center are fully accredited by the ACR in mammography, breast ultrasound, stereotactic breast biopsy and ultrasound-guided breast biopsy.

For more information or to make an appointment at Women's Imaging Center or TimberRidge Imaging Center, please call 352-671-4300. Appointments may also be made online at [www.raocala.com](http://www.raocala.com).
